Design

The cost includes line ads and self-designed graphics.

Your graphic should be 1024 x 128 pixels.

If your graphic is sized incorrectly, it may be shrunk or stretched to fit the screen.

Or, have our graphic designer create your ad for \$40.

Tips: Use large font size, few words, and easy-to-read fonts. Cursive and all CAPS are difficult to read and should be used sparingly. And, utilize high contrast colors.
